

Weather forecast of Islamabad for next 24 hours

Mostly cloudy weather with chances of more rain and thunderstorm is expected during the period.

Expected Temperature Range (°C)

Maximum Temperature: 25-27

Minimum Temperature: 7-9

Present Synoptic Situation

Infra-red satellite image is showing a grey sheet of low level clouds (base below 6500 feet) over Islamabad. One of the reasons of formation of these clouds is presence of cyclonic winds at 850 hPa, 700 hPa, and 500 hPa levels that are part of trough of a low pressure area located in west of Pakistan near boundary of the country. This situation is likely to continue and leading to chances of more rain/thunderstorm during the period.

Forecast validity period

Issued at 05:00 p.m. on 14-11-2017

Valid till 05:00 p.m. on 15-11-2017
