

COMSATS UNIVERSITY ISLAMABAD DEPARTMENT OF METEOROLOGY

Weather forecast of Islamabad for next 24 hours

Mainly cloudy weather is expected with some chances of rain and thunderstorm at times during the period.

Expected Temperature Range (°C)

Maximum Temperature: 11-13

Minimum Temperature: 01-03

Present Synoptic Situation

Infra-red satellite image is showing a sheet of low level clouds (base height less than 2000 meters) over Islamabad. One of the major reasons is presence of cyclonic winds at 850 hPa pressure level that are approaching the city from south-west direction. The winds are part of a trough of a low pressure area located outside boundary of the country near Balochistan. These conditions are likely to persist during the period.

Forecast validity period

Issued at 04:00 p.m. on 10-01-2019

Valid till 04:00 p.m. on 11-01-2019

Dr. REHAN AHMED
Assistant Professor,
