

## Weather forecast of Islamabad for next 24 hours

Mainly humid weather is expected with partly cloudy sky conditions occasionally. Moreover, there are chances of rain associated with gusty winds and thunderstorm during second half of the period.

### Expected Temperature Range (°C)

Maximum Temperature: 32-34

Minimum Temperature: 22-24

### Present Synoptic Situation

Infra-red satellite image is showing partly clear sky conditions over Islamabad. However, some part of the sky is covered with grey sheet of low level (base height less than 2000 meters) clouds. One of the major reasons is approach of some moisture carrying cyclonic winds from south and southeast directions at 850 hPa level. These conditions are likely to enhance later on and produce more clouds and rain.

### Forecast validity period

Issued at 2:30 p.m. on 23-08-2017

Valid till 2:30 p.m. on 24-08-2017

Dr. REHAN AHMED  
Assistant Professor,  
Department of Meteorology,  
CIIT, Islamabad.
