

Weather forecast of Islamabad for next 24 hours

Mainly dry and humid weather associated with partly clear sky conditions is expected.

Expected Temperature Range (°C)

Maximum Temperature: 30-32

Minimum Temperature: 22-24

Present Synoptic Situation

Infra-red satellite image is showing partly clear sky conditions. Northerly currents at 500 hPa level over Islamabad are part of a ridge of a high pressure area located in west of Pakistan far from boundary of the country. A few currents at 700 hPa level having cyclonic circulation are likely to persist for some hours. It may result in some clouds.
